

## BUSINESS SPOTLIGHT

# CedarDale Pet Resort

"I've always had pets in the home," Cedar Dale owner Kelly Everson said. "And I've always wanted to work with animals." These days, she's putting that passion to work—and to do good works at the same time. When she recently took over Cedar Dale Pet Resort in Genoa City, Kelli knew she wanted to provide a comfortable, welcoming environment for day care and boarding pets, but she also wanted more. A long history of volunteering at dog adoption events has made her aware of the great need for promoting shelter dogs.

And now she's using her new business to get the word out. Kelly just hosted an adoption weekend featuring adoptable dogs from Kenosha's Safe Harbor Shelter, and she hopes to plan more.

In the meantime, she and her staff (most of which are the same from when she bought the business) are happy to welcome returning dogs and new canine (and feline) friends. Upgrading the facility also is a priority, with the animals' comfort coming first, of course.

"We just installed perfect turf, which provides a year-round surface that's ideal for dogs," she said. Cedar Dale also provides grooming services, and there's always a staff member on site.

For additional information, visit [cedardalepetresort.com](http://cedardalepetresort.com). The facility is located at N1538 North Daisy Drive, Genoa City. Call (262) 279-3900 to find out when you can tour the resort.
